

ADVANCED PROJECT MANAGEMENT

NATIONALLY RECOGNISED & INTERNATIONALLY ACCREDITED

OVERVIEW

Your ability as a project manager to demonstrate best practices in project management—both on the job and through professional certification—is becoming the standard to compete in today's fast-paced and highly technical workplace. This programme expands upon the basic concepts of project management you discovered in a Project Management Fundamentals course and covers in-depth the essential elements of managing a successful project. Focusing on the generally accepted practices of project management recognized by the Project Management Institute, Inc. PMI®, this course offers you a standards-based approach to successful project management across application areas and industries.

WHAT YOU WILL ACHIEVE

Upon the completion of this course, you will be able to:

- Describe projects and project management disciplines
- Apply project management processes and procedures to their own projects
- Lead, monitor and evaluate project teams

This training is designed to give participants a good overall understanding about project management, as well as many effective tools and methods to help manage projects successfully. This training is appropriate for new project managers, as well as functional managers who are responsible for overseeing projects.

METHODOLOGY

Well-balanced theoretical and practical methodology, which includes interactive discussions, case studies, interactive activities/exercises and assignments to understand the concepts and their applicability
