TRAIN THE TRAINER

This Training programme will provide trainers with the basic skills and knowledge needed to design, deliver and evaluate their own training sessions. Emphasis will be on developing interactive training techniques to engage and stimulate the learners. The main objective of this programme is to prepare a professional trainer who has effective presentation and facilitation skills. Moreover, the programme would also touch base with skills in developing a training programme. Participants will learn the key concepts related to adult learning (learning process), writing learning outcomes, training programme design and structuring training assessment which lead to authentic evaluation of mastery of new skills / competencies.
